**Development Watch Inc and
Sunshine Coast Environment
Council**

Stormy, Turbulent, Brooding, Deep. Sometimes sparkling, often steep, the waves come crashing round our feet.....

Come immerse yourself in sounds of the sea with the Sunshine Coast Symphony Orchestra "SYMPHONY BY THE SEA".

The Programme includes "Hebrides Overture" by Felix Mendelssohn, the 2nd. Mvt. Of Dvorak's "New World Symphony", Smetana's "Moldau", Handel's "Water Music" and Percy Grainger's "Molly on the Shore".

This concert is presented under the auspices of the Coolum Development Watch Committee with profits from the sale of tickets contributing to the committee's tireless work in attempting to ensure appropriate development for Coolum that enhances the lifestyle we "coasters" are so fortunate to enjoy.

The Sunshine Coast Symphony Orchestra is a not-for-profit community orchestra whose members are all residents of the Sunshine Coast.
