CEO's response:

*I apologise for not providing a response - it obviously slipped through the gaps due to my A/L.  
11.5.1 was an item that involved a proposed land acquisition that may have included monetary amounts and if the report was available in the public domain it could prejudice councils negotiating position to achieve a best value outcome.*

As an aside , I hope you and your members have noticed a reduction in confidential items at SCC .  
The confidential items are now mainly reports on commercial negotiations involving our complex region making projects and property acquisitions.
