Hi John

I have attached the Items for Consideration for next OM from the Council website for your information.

Nothing specific about your motion in relation to Brisbane Road Car Park listed but I assume from what you said this morning that it will be under Item 9 Notified Motions of the Agenda and will be dealt with in a public session?

As I indicated today it would not be correct to say that OSCAR is endorsing your preferred position **at this stage** as we have not formed a view on that yet. What I can say is that we support you to the extent that we see no value in revisiting the Abacus scenario and at the very least would like to see a proper consultation process involving both the business and general community to try and determine the best outcome and one that addresses parking, traffic and accommodation needs (probably in that order of priority) in the most cost effective way for ratepayers.

Best wishes ... Greg
