COOLUM BEACH QLD 4573

Dear Ms Chapman

#### **LETTER OF APPRECIATION – MRECG NON-STANDING MEMBER**

As you would be aware council has recently made the determination that the Maroochy River Estuary Consultation Group (MRECG) has now completed its deliberations in relation to the Maroochy Groyne Field Renewal Project and will now be dissolved.

Importantly the function of the Group, to some degree, will now be undertaken as part of the broader Community Advisory Group (CAG) associated with the development of the Sunshine Coast Coastal Hazard Adaptation Strategy as per the discussion at the recent MRECG meeting on 27 November 2018.

Accordingly, council would now like to express its sincere appreciation for your role as a non-standing member in this Group.

The MRECG was instrumental in representing the range of stakeholders on this important coastal protection issue and your role in this Group cannot be understated.

As per the process for the MRECG, expressions of interest will be sought by the broader community to participate on the CAG. You are welcome to apply if you feel so inclined and further information in relation to this process will be available publicly in the New Year.

Yours sincerely

Warren Bunker
