Hi Greg,

Sorry I missed your call, I'm out of the office this morning.

If the submission is received on or before 5 July 2019 by email, I would consider that this would meet the timeframe criteria and would be properly made if they met the other properly made submission criteria.

The Act does not allow for an extension for the submissions timeframe based on the request from SARA. However, people may still provide comments after the formal period has ended and these would be considered by the assessment team. Any comments made after the close of submissions would not be properly made though.

Hope this helps.

Cheers,

Marc

[SCC External Email: Use caution with links and attachments]

Hi Marc

I have just left a message for you to call me.

You may wish to respond to this email if you would prefer. The questions I have on behalf of members are as follows:

- 1 When is the submission close time? There seems to be some confusion as to whether it is 16:30 or midnight tomorrow, 5 July. The Public Notification Ad that appeared in the SCD on 20 May did not specify a time so I assume submissions time-stamped on or prior to 11:59 pm will be deemed to be properly made (provided of course that all other conditions for properly made submissions are met).
- 2 Given SARA's request for more information from the developer, and the developer representative's subsequent request to stop the assessment process, will the submission date be extended to give the community the opportunity to consider the responses the developer provides to SARA as these could have an impact on the content of submissions members of the community might wish to make?

A timely response would be appreciated.

Best wishes ... Greg
