### Governance, Transparency and Ethical Behaviour

#### Q 1 Are you aware of the Principles listed at the beginning of the Local Government Act 2009 and will you commit to abiding by these principles?

YES/NO Yes	How do you see them influencing your decision-making? The key elements of my platform 'Respecting the Community' mirror the LGA Principles (transparent and effective processes..., sustainable development and management..., democratic representation..., good governance..., ethical and legal behaviour...) - my representation will respect and deliver on the best interests of the PEOPLE in a responsible manner with integrity (I strongly oppose SCRC's present direction of favouring corporate interests over community interests)
------------	--

#### Q 2a What are the relevant legislation and regulations that govern the conduct of councillors and the activities of council?

Response: Key State Gov legislation:	<ul style="list-style-type: none"> <li>Local Government Act 2009 and Regulation 2012</li> <li>Planning Act 2016 and Regulation 2017</li> </ul>
Key Sunshine Coast Regional Council Documents:	<ul style="list-style-type: none"> <li>Councillor Code of Conduct (23 August 2012)</li> <li>Councillor Portfolio System and Protocols 2016 (21 April 2016)</li> <li>over 50 Policies, 3 Regional Strategies, 7 Strategies, and 14 Local and Subordinate Local Laws (Note that these are reviewed from time to time and the needs of Div 10 will be considered in these reviews)</li> </ul>

#### Q 2b How will these impact your decision-making?

Response: My focus is getting back to fulfilling CORE council responsibilities - delivering basic services and amenity that benefit the greater community - this must always be council's first priority, done so in an equitable manner across ALL Divisions within SCRC, keeping residents informed and engaged
--

#### Q 3 Do you or your immediate family have assets, interests or affiliations which might be likely to present you with potential conflicts of interest in carrying out your tasks as a councillor?

YES/NO No	If YES, how will you deal with these? note - my father retains a remnant portion of his (former) cane farm in Bli Bli - this is outside
-----------	--

	the urban footprint of the Bli Bli Local Plan and because of it's low-lying nature and isolation from services will remain as rural land
--	--

**Q 4 As councillor/mayor you will regularly meet to vote on various matters. Some of these votes may be passed by a majority decision, yet there exists aspects which indicate some or all of the following: improper due process, breaches around what might be deemed 'reasonable action' according to duty of care, statutory instruments, local government legislative provisions, by-laws, policies, procedures and responsibilities. What action would you take?**

Response: I would have my concern formally noted before a vote, and seek further advice/clarification through the CEO
--

**Q 5 Do you believe that all Council meetings should be open to the public?**

YES/NO Yes	If NO, then what circumstances might justify a closed meeting? sensitive/legal matters should be resolved between council officers/applicant prior to council meetings to allow them to run as open forums
------------	---

**Q 6 Do you support providing requested information to the community without the need for individuals and organisations having to resort to Right to Information applications?**

YES/NO Yes
------------

YES/NO Yes	If NO, why not?
------------	-----------------

**Q 10 What do you mean by, and how would you measure, sustainable development?**

Response: sustainable development has no adverse impact - the effects of any development should be positive or at least neutral on environment, quality of life and amenity - these effects are tangible when in existence , but should be foreseen if decision making is done in a responsible, considered, impartial manner
--

**Q 11 Are you endorsed or supported by any registered political party?**

YES/NO No

## Climate change

### Q 12 Do you accept that:

(a) as the level of carbon dioxide in the atmosphere increases the proportion of the sun's radiant energy that is retained by the earth increases?	YES/NO Yes
(b) consequences of the increase in the retained energy include rising average temperatures and major changes in weather patterns that can result in drought and heavy rain in areas where such weather events had not previously occurred?	YES/NO Yes
(c) the combustion of fossil carboniferous fuels such as coal, oil and natural gas has been a major contributor to the increase in the level of carbon dioxide in the atmosphere that has occurred since industrialisation began?	YES/NO Yes
(d) clearing of forest for agriculture and housing has also contributed to the increase in carbon dioxide levels in the atmosphere?	YES/NO Yes
(e) the major source of greenhouse gas emissions for local government comes from the decomposition of organic residues in landfill?	YES/NO Yes
(f) maintenance of biodiversity as close as possible to what it was before human intervention is essential for the healthy survival of the human species?	YES/NO Yes

### Q 13 What do you see as the key impacts of Climate Change on the Sunshine Coast?

Response:

adverse impacts on low-lying developed areas from flooding, coastal erosion, increased threat to wildlife and residents within forested areas from bushfires, rising temperatures and reduced air quality affecting quality of life generally

### Q 14 How should the Sunshine Coast Regional Council deal with this now and into the future?

Response:

Accepting that change IS occurring and adapting to suit - revisions to planning scheme as necessary, improved council operations (landfill sites, council machinery, incorporating renewable energy) and advocating for efficient public transport systems

### Q 15 Do you support the SCRC in joining other councils in signing a Declaration of Climate Emergency?

YES/NO Yes

### Q 16 Will you advocate for the SCRC to have a moratorium on any development proposed in areas vulnerable to the impact of climate change such as in flood-prone areas and coastal zones until such time as the Coastal Hazard Adaptation Strategy is completed?

YES/NO Yes

## Planning issues

### Q 17 Do you agree that:

(a) development applications that conflict with the relevant Planning Scheme Acceptable Outcomes and other planning instruments should be refused?	YES/NO Yes
(b) genuine community consultation should be undertaken in the early stages of a Proposed Planning Scheme amendment and prior to being progressed to the state?	YES/NO Yes
(c) applicants wishing to lodge a Development application that substantially does not comply, or seeks to over-ride the Planning Scheme should be advised to await the formulation of the next planning scheme when they can lodge a submission on that new planning scheme during the public consultation period?	YES/NO Yes
(d) that development that is vulnerable to the impacts of Climate Change, flooding, and inundation be prohibited?	YES/NO Yes

### Q 18 Do you agree that:

(a) Planning Scheme provisions regarding density, site cover, height and parking requirements must comply with the Acceptable Outcomes in the Planning Scheme?	YES/NO Yes
(b) financial contributions in lieu of the provisions of onsite parking should not be allowed unless improvements are provided within 200 metres of the development?	YES/NO Yes
(c) greater enforcement is needed where a developer constructs (or private certifier signs off) other than what has been approved, particularly in relation to height and density of development?	YES/NO Yes

### Q 19 What is your understanding of when it is appropriate to override the Planning Scheme, when there are conflicts?

<p>Response:</p> <p>It would only be appropriate to override the Planning Scheme (in extreme cases where the circumstances could not have been reasonably foreseen) if there was a clear and compelling benefit to the broader community to do so (assisting a developer to get a non-conforming proposal passed would not be such a trigger to make a change!) - I favour review and changes (if required) of the Planning Scheme (as a whole) every 2<sup>nd</sup> council term as happens now, allowing full community engagement</p>
--

### Q 20 Would you support extending submission timeframes from the statutory minimum in relation to Planning Scheme amendments?

YES/NO Yes
------------

### Q 21 The floodplains of the Sunshine Coast have been extensively filled primarily for urban development. This has increased the risk to people, property, infrastructure and the environment from coastal inundation and flooding and contributes to greater exposure to extreme weather events associated with climate change. Planning instruments, State Planning regulation and various reports give regulatory and guidance material regarding floodplain management with land-use one of the key areas to avoid and manage risk. Will you act to prohibit further development on the floodplains?

<p>Response:</p> <p>Yes - flood plains play an important role - as a relief path for flood water!! - these low-lying areas need to be filled (for flood immunity) when development is proposed, which MUST have adverse impacts (increased water levels) on adjoining properties during future flood events - these adverse impacts have already been experienced and, in</p>

the cases I am aware of, Council have offered no support for the affected parties instead, siding with the developer

**Q 22 With respect to the South East Queensland Regional Plan (Shaping SEQ) that was given effect on 11 August 2017, do you support the Plan in its current form relating to the Northern sub-region, including designation of the Urban footprint and population targets?**

**Q 23 Do you support the proposed Coolum West intense residential/mixed use development and wave pool proposal on significantly constrained land, which is also outside the urban footprint?**

YES/NO No

If NO, will you, if elected to council, support SCRC advocating to the State Government against this proposal? YES/NO Yes

**Q 24 What is your view in relation to this statement:**

*“ALL mixed-use multi-residential buildings requiring a Material Change of Use (MCU) must be “impact assessed” except where compliance is achieved with all relevant SCPS “Acceptable Outcomes” in the codes applicable to each development application. Community notification and rights of appeal in the P&E Court will therefore be restored for all non-compliant applications simply by this change”*

Response:

I support any initiative that increases community notification, engagement and rights during the approval process

**Q 25 The coastal hazard and “erosion prone area” is defined by the Queensland Government and State Planning Policy Guidance states redevelopment is to “avoid urban footprint expansion into erosion prone areas (3.2)”.**

**How will you participate in supporting a change to limit or avoid increases in the footprint and density of medium and high rise mixed use -residential buildings in these designated coastal hazard areas to reduce overall risk?**

Response:

I will ensure all fellow councillors (and council officers) are fully aware of the extent and importantly the sensitivity of this zone, and ensure the Planning Scheme provides for it's protection
