Dear Melva,

In view of the fact that the case Development Watch Inc. versus SH Coolum Pty Ltd is once again set to be heard in the Planning and Environment Court from July 11th onwards we have been approached by several members of the community who simply cannot understand why SCRC will again appear alongside a wealthy multi-national corporation spending ratepayers' money!

As the development in question is still viewed by a very large segment of our population as highly inappropriate, the decision to continuously defend this in court despite the Supreme Court's judgment earlier this year seems strangely at odds with the recent announcement that the entire Sunshine Coast Local Government Area has been declared a Biosphere Reserve by UNESCO.

On behalf of our local community we would like to ask OSCAR to approach SCRC with the request to either completely withdraw from the upcoming hearing at the Planning and Environment Court or at the very least take only a minimal role in order to reduce costs for ratepayers as much as possible.

Kind regards,

Jim Moore
